

**just like us**

**LGBT+**

**Reading List**

**2025/26**

# Welcome

1

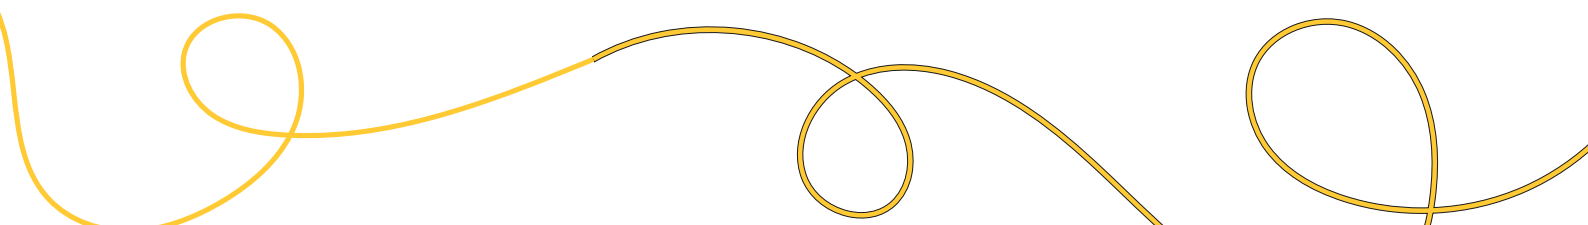

We want every child and young person to feel like they are **represented** and **heard** and part of that is seeing characters and families that are like them in literature. We also know how important reading can be at **all stages of development** and the impact it can have on how we see the world.

To **encourage allyship** and **empower LGBT+ young people and families** - we've put together our annual reading list with a mixture of new releases and older classics to support you in diversifying your school's reading offers.

The list has been split into three main sections:

- **Top Picks:** This is a curated list by our Education Team who have hand-selected the books they think are the most impactful or useful when thinking about curating an LGBT+ book list.
- **What's New:** These are all the books that are new releases published within the last academic year (2024/25).
- **Full list:** This combines our previous reading lists with our new selections. It's a long list and we've tried to highlight key themes and split them clearly by age group to make it as user friendly as possible. We recommend using the links on the contents page to navigate to the section you need.

You will find ISBN numbers listed alongside each book and if you click on the book cover image this will take you to the book's listing on **bookshop.org** which will allow you to purchase the book while supporting independent bookshops. For easy navigation we have included links to each section on the contents page. Just click the name of the section you're looking for and it will take you straight there. Happy reading!
