Headteacher Mrs Rachel Kelly BA (Hons)

21 November 2024

Dear Parents and Carers

As a Geography department we are always looking to inspire the next generation of geographers and to enhance their geographical experience.

Geography students in Year 10 will be taking part in a 'Hazards Masterclass', remotely led by 'Time for Geography' and facilitated by Mr Chapman and me. This will enhance their understanding of tectonic hazards that they covered in Year 9 and will be covering as part of their GCSE course. More information can be found here: <https://timeforgeography.co.uk/events/autumn-2024-hazards-masterclass-booking/>

The date for the masterclass is Tuesday 10 December and will last for the entire school day. Students should attend registration as normal and then arrive to H4 promptly for the start of Period 1. The day will run as a normal school day across the five lessons. Students do not need to wear uniform for the day, but clothes should be appropriate for working in school.

There is no charge for this event, as the Geography department is covering the cost from its departmental budget, however, if you feel that you would like to make a contribution towards the running of the event then a £10 nominal value has been added to ParentPay.

As a Geography department we are really looking forward to running this event. We hope that your child applies themselves fully throughout the day and makes the most of the opportunity this day provides. Should you have any further enquiries, please do not hesitate to contact me at jcraig@stourvalley.org

Your faithfully

Mr J Craig
Head of Humanities/Geography
